LIBRARY TRUSTEES' REPORT.

February 15, 1917.

The seasons come and go and the years swiftly pass, and our library report is again about the same, as reference to our librarian's report will attest. Our trustees have not aimed at the spectacular but simply to provide for the old and the young the richest entertainment of the best books. In this endeavor we have sought to place the steed before the cart. To lubricate the town appropriation as far as we can and preserve as best we could our nest egg, the West legacy now amounting to \$532.38, invested in note of the town of Westmoreland at 4 per cent interest. To us duty seems to dictate this procedure. The future may have demands more imperative than even the present and this memorial must be carefully husbanded, meantime giving due attention to the wants of the present. As a town we are rich in futures. We must provide for the wants of the present, however. We respectfully ask for an appropriation..

REPORT OF SUPERINTENDENT OF SCHOOLS.

We respectfully submit for your consideration this our third annual report being the fifteenth of its series.

Owing to the form of the new registers which run continuously for the whole year, the following statistical table will cover the total for the year ending in June 1916. New teachers are inserted where changes have been made.

SCHOOL.	TEACHERS.	Total Enrollment	Average Attendance	Per cent. of Attendance
Advanced..	Alice E. Stebbins.....	21	15.9	81
	Fannie Willard.....			
Primary....	Lena de Bonville.....	26	18.3	90

	Bernice Davis.....

Meadow and Point	Ruth Grimes.....	3	2 3	99
	Sue Knight.....			

The work has been maintained generally, as in years past. While it is a period of transition, yet we have endeavored to make the work grow gradually into that prescribed by the new

state program. The old program was traditional in character while the new one now being introduced throughout the state is a reorganization based upon modern educational ideals. What we have attempted has seemed to work out satisfactorily. A part of the plan is to do the essentials in the first six grades, and in grades seven and eight to complete and correlate the elementary work with that which meets the greater needs of life and the community. If the work of the two upper grades and such other added years as seem advisable can be raised to a standard where we can secure state approval, we can then have a central school which should provide for the needs of the pupils above grade six and fit for other schools for remaining school years. If we can not secure approval we shall be obliged to pay tuition of pupils above grade six who are attending approved high schools of junior grade.

We have endeavored to maintain the high standard of the schools by securing good teachers, and retaining those who have proved their worth. The Meadow school has been moved to the Point with an increased attendance. The foundation work of the junior high school work has been laid. The teachers have been directed in the new lines of work. The text books have been developed to meet changing conditions. We believe the work is advancing along the right lines to meet your conditions.

We shall perhaps need a more liberal appropriation, if we are to develop the work at the village. The rooms are not adapted to the work, but we shall endeavor to use them to the best advantage. We should put at least one hundred dollars in equipment in this school alone. In these trying times and unfortunate loss of the town hall we shall ask no radical departures but hope for your support in securing sufficient appropriation to provide for the immediate needs of the school system.

E. J. BEST,
Superintendent.
